

*Not only the best tool,
but simple to use*

#CantarMini

The **CantarMini** is the new Aaton's Digital's 16 tracks ultra portable recorder-mixer. Our aim during the development of the **CantarMini** was: to make a small **CantarX3** with half of the inputs, half of the weight and half of the price but with same quality of microphone preamplifiers, same functionalities, same graphic interface and the same software richness.

Analog & Digital Inputs

- 4 low noise mic inputs, preamps with very high quality transformer
- 48V Phantom, limiters, filters and EQ
- 2 balanced line inputs
- AES digital inputs including 2 AES42 (mode 2), AES3 pairs (4 mono channels) - Built-In slate mic with ext slate mic input

Outputs

- 8 analogue line level outputs ; 4 AES3 digital outputs on SubD HD 15
- 4 Recording Media : Simultaneous recording to internal m.2 SATA 256 GB SSD, two SD cards and USB external drive

Main features

- All inputs can be routed to any of the 16 tracks, linear control sliders addressable to any inputs and/or output
- All tracks and inputs can be routed to 8 analogue auxiliary outputs and/or 4 digital outputs
- Self-Generated PDF, CSV & ALE Sound Reports embedded with deliverable media
- Variable Delay on each analogue Inputs
- 30 Second Pre-Record Buffer

Power

- Two identical on board quick release Lithium smart batteries ensure seamless switchover during recording
- Up to 11 hours autonomy when using "stand by" mode
- One XLR4 DC 13-17 Volts input for extra power when working on cart

Metering & Controls

- Ultra bright large swiveling display panel, visibility optimized for shoulder work or cart, auto adjustable brightness
- One large rotary selector for easy operation in any situation
- On board ten channel sliders plate with magnetic linear assignable sliders
- Direct access to monitoring and set-up functions through dedicated buttons

General Specifications

- Open mechanical structure with independent analogue, digital and display modules for easy maintenance and "anti-obsolescence" upgrades
- Housing made of machined avionic aluminium
- Ultra-resistant coatings, water and dust resistant
- Dimensions (L x W x H): 10.2 x 9.2 x 3.5 in | 259 X 234 X 90 mm
- Weight: With batteries 7.2 lbs, 3,26 kg | without batteries 6.2 lbs, 2.8 kg
